## What we feel is important to you:

- Intuitive navigation
- Simple maintenance (back end)
- Modern and attractive visuals
- Reduce overlap of information between yourselves and the IABC international website
- A way to dialogue with users
- Looks good on mobile

## Other:

Style similar to the IABC Saskatoon website

## What we think are your concerns with the current website:

- Need web development experience to make changes to the website
- Navigation menus have become messy
- Posting jobs takes too much time
- Communication is not two way with your users

# Website Functions We are Considering

- Information presentation (homepage, events, career, etc.)
- Job posting
- Payments
- Accounts (Are they needed? How would this enhance user experience?)
- Blog (Is social media connectivity sufficient for user input)
